

# SAMUEL DACARA

+639165131902 - hello@samdacara.com - linkedin.com/in/samshh - github.com/samshh

## Career Profile

Fourth-year Computer Science student with over 2 year of hands-on experience in frontend development, specializing in building responsive and high-performance web applications using modern technologies such as React and TypeScript. Experienced in developing scalable user interfaces, integrating APIs, and delivering polished, user-focused designs with strong attention to performance and usability.

## EDUCATION

Mapua Malayan Colleges Mindanao  
Bachelor of Science in Computer Science

Expected: September 2026

- Relevant Coursework: Software Engineering Principles, Cloud Computing, Data Structures and Algorithms (C++), Artificial Intelligence (Python), Web Development (JavaScript).

## EXPERIENCE

Dotside Studios  
Front-end Developer  
Remote

January 2025 - November 2025

- Developed scalable and responsive interfaces using React.js and the TanStack framework, integrating APIs and optimizing client-side performance for smooth user interactions.
- Collaborated with designers and developers using Git-based workflows, translating UI/UX designs into consistent, production-ready components.

Tactiv Studios  
Front-end Developer  
Remote

November 2024 - September 2025

- Built cross-platform interfaces using React.js, React Native, and AngularJS, focusing on reusable components and responsive design across web and mobile.
- Worked in Agile teams with Git-based collaboration, communicating closely with designers to deliver user-friendly and visually consistent interfaces.

## PROJECTS

### Naonao.ph

- Contributed to frontend development of an event aggregation platform using React (TanStack Start) and Directus CMS, implementing scalable UI architecture and efficient API integration.
- Built real-time UI interactions and optimized data fetching to support high concurrency with smooth, low-latency user experience.

### CHEDx2.0

- Developed a responsive landing page for the CHED Summit in Davao City, focusing on clean layout, strong visual hierarchy, and smooth user flows.
- Delivered a modern, polished aesthetic with attention to typography, spacing, and performance optimization.

### DurianPy

- Developed a landing page for a Davao-based tech user group, emphasizing a sleek, developer-focused aesthetic and structured content flow.
- Implemented interactive UI components to improve engagement while maintaining responsiveness and performance.

## TECHNICAL SKILLS

Front-end Technologies: React, Vue, Angular, NextJS, Tanstack Start, TailwindCSS, ThreeJS, GSAP

Back-end Technologies: MySQL, Firebase, Supabase, FastAPI, RestAPI, Django, Node, Express

Development Tools: Git, Figma, VSCode
